Distilled Hills
IN THE

CRAFTED DISTILLED SPIRITS, PROUDLY WESTERN AUSTRALIAN

HHH is a boutique gin and whisky distillery set in the Bickley Valley, Western Australia. HHH is the brainchild of Hilton Izzett, a civil engineer and arbitration specialist, who came to Australia from Southern Africa in pursuit of a safer life for his daughters.

In early 2018, HHH began developing a solid reputation for designing and building the highest quality custom copper stills for distilleries across Australia.

Now HHH spirits are being produced with the same meticulous attention to detail as the copper stills its distilled in, with customer experience always in mind – a true labour of love.

HHH sprits are a result of combining outstanding technical skills, passion for creating beautiful experiences and the sense of responsibility that comes from the founder's mission to prioritise people before the bottom line.

A handwritten signature of Hilton Izzett in black ink.

Hilton Izzett

*Founder, Head Distiller,
Still Maker and Roustabout*

Someone once said...

*they were not about chasing dreams,
they were about making them.*

Hilton, the owner and founder of HHH Distill, says he has finally figured out how to do just that — and the result is now his reality. When you experience HHH craft distilled spirits, you will taste the passion and difference that drives Hilton's efforts.

After moving to a beautiful property in the heart of the Bickley Valley surrounded by trees and nature, Hilton set about creating his dream distillery from the ground up — starting with his very own handcrafted copper still. Hilton's insatiable curiosity led to continuous

improvements in quality, design and production efficiency, and before long word got out. Distillers from all around Australia and New Zealand now come to Hilton for their custom made copper stills — drawn by the quality and ingenuity that make HHH Distill products unique and of the highest quality.

Now, the HHH brand of spirits has been developed with the same principles in mind. Gathering influence from the multicultural melting pot that is Australia, and the experiences of a first-generation

migrant to this great land, the ingredients and techniques that go into the making of HHH spirits are a reflection of all of these influences, but with a typical Australian "think outside the box" twist.

At HHH Distill, we follow Hilton's lead and believe in creating a company that is creative, inspiring, and focused on people before profit. Happy people make great products and great products make people happy.

Three cheers to that!

Bush Breakfast Martini

INGREDIENTS:

50ml HHH Wax Lyrical gin
(1 2/3 oz)

15ml Cointreau (1/2 oz)

15ml fresh lemon Juice (1/2 oz)

1 tbsp orange marmalade

Combine all the ingredients into your cocktail shaker and shake with ice. Strain into a chilled coupe glass and garnish with a sprig of Geraldton wax (or substitute with flamed thyme)

WAX LYRICAL

Geraldton Wax & Botanicals

Wax Lyrical is the first spirit released by HHH. It's signature ingredient is the leaf of WA native Geraldton Wax (*chamelaucium uncinatum*), expertly blended with juniper, coriander seeds, angelica root, cassia bark, liquorice root, calamus root, almond and lemon peel to produce a uniquely savoury but sweet Gin that utilises a special distilling technique to draw out additional cassia flavour. While Wax Lyrical is a great foundation for many cocktails, it is equally at home in a glass on its own — according to numerous reports from customers who enjoy drinking it neat.

Rated 9.5/10 by 'Scotch Down Under'

KEY INGREDIENT:

Geraldton Wax

CHARACTERISTICS:

savoury, dry, smooth

FIRST RELEASED:

September 2020

AVAILABLE IN:

500ml

Chilli Kaffir Gimlet

INGREDIENTS:

60 ml HHH KLC gin (2 oz)

30 ml fresh lime Juice (1 oz)

22.5 ml kaffir lime infused
simple syrup ($\frac{3}{4}$ oz)

Red chilli

Combine all the ingredients into your cocktail shaker. Shake with ice and strain into a chilled coupe glass. Garnish with a lime wheel and a slice of red chilli.

To make kaffir infused simple syrup, combine 1 cup of castor sugar and 1 cup of water and heat until all sugar has dissolved. Let it cool slightly then add 4-5 freshly torn kaffir lime leaves. Leave to cool completely then blitz and strain.

KLC

Kaffir Lime, Cumquat & Botanicals

KLC is an acronym for kaffir lime and cumquat and is the first recipe developed by HHH. Flavoured with the usual suspects of juniper, coriander seeds, angelica root, cassia bark and liquorice root; this gin is differentiated by the use of kaffir lime leaves and whole cumquats that grow on the premises at HHH.

The result is a happy, fresh, Summery and full flavoured gin that will go down well at any picnic or lunch, yet is versatile enough to be enjoyed at sunset too. The juniper is exaggerated by its combination with kaffir lime leaves so if you're looking for a gin that tastes like gin — this is for you.

KEY INGREDIENT:

Kaffir lime, cumquat

CHARACTERISTICS:

junipery, citrusy

FIRST RELEASED:

November 2020

AVAILABLE IN:

500ml

Garden Gin & Tonic

INGREDIENTS:

60ml HHH Wax Lyrical Blue
gin (2 oz)

120ml Tonic water

1 tbsp freshly squeezed
lime juice

Floral ice cubes

Place ice cubes in a glass. Add
Wax Lyrical Blue gin, tonic water
and finally the lime juice. Stir
well with a long spoon. Garnish
with a flower or a lime wedge
and serve immediately.

For a beautiful and fragrant
addition, freeze edible flowers
into large icecubes. Any edible
flower will work but try lavender,
roses, violas and marigolds.
Fresh herbs and their flowers
are also lovely.

WAX LYRICAL BLUE

Geraldton Wax, Blue Pea & Botanicals

Wax Lyrical Blue is a variation of Wax Lyrical, HHH Distill's first release gin featuring Geraldton Wax as its signature ingredient. As a variation, it has Blue Butterfly Pea flower (latin: *clitoria ternatea*) infused post distillation for a delightful blue colour which changes to pink with the addition of tonic.

KEY INGREDIENT:

Geraldton Wax
Blue Pea

CHARACTERISTICS:

savory, dry, organic

FIRST RELEASED:

January 2021

AVAILABLE IN:

750ml
